EU Blue Card valid until 12/2027

PROFESSIONAL SUMMARY

Senior QA Automation Engineer / SDET with 7+ years of experience across UI/API automation, CI/CD-integrated quality, framework improvement, debugging, delivery workflow optimization, and DevOps-adjacent quality engineering.

Relevant to Duetto through Playwright automation direction, migration-minded framework improvement, CI/CD quality feedback, API/backend validation, test reliability, AI-assisted testing workflows, and practical experience connecting developers, QA, and delivery systems around quality.

CORE STRENGTHS

Quality engineering and test automation enablement Playwright and TypeScript automation direction
Framework migration and automation maintainability
CI/CD quality feedback and pipeline-integrated testing API/backend validation and contract-testing ramp-up readiness
Logs, dashboards, monitoring, and flaky-test investigation
Docker/Kubernetes support context and Testcontainers ramp-up readiness
AI-assisted test development, review, and productivity workflows
Developer collaboration, coaching, and quality-awareness building
Practical systems thinking across product, environment, and delivery layers

TECHNICAL SKILLS

Automation: Playwright, Selenium WebDriver, API automation, Postman/Newman, FlaUI, Power Automate

Languages: TypeScript/JavaScript, C#, Java, PowerShell, SQL, practical Python scripting

CI/CD: Azure DevOps, Jenkins, TeamCity, YAML pipelines, Git, GitHub Actions ramp-up readiness

Observability/Debugging: Grafana, Prometheus/Loki, logs, PostgreSQL, Browser DevTools, defect triage

Infrastructure Context: Azure, Docker, Kubernetes support scenarios, Helm, Windows/Linux, virtual machines

PROFESSIONAL EXPERIENCE

DEFINELY - QA AUTOMATION ENGINEER

Krakow, Poland

06/2025 - Present

- Improved and extended an existing API automation framework to better support team feedback and reliability.
- Increased automated coverage from around 117 to 199 tests without increasing total runtime.
- Reduced log output from around 1.5 GB to 11 MB per run, improving automation signal and failure analysis.
- Used PostgreSQL/backend context in QA work for validation, investigation, and defect analysis.

- Supported transition toward Playwright with TypeScript as a maintainable UI automation direction.
- Worked with QA and development stakeholders on testability, acceptance criteria, defects, and quality risks.
- Used modern AI-assisted tooling and agent-style workflows to speed up scripting, analysis, and automation-support tasks.

LEAPWORK - TESTER / DEVOPS ENGINEER

Krakow, Poland / Minsk, Belarus

11/2018 - 03/2025

- Built PowerShell scripts, JavaScript/Tampermonkey automations, helper tools, VM utilities, installation automation, and internal workflow tools.
- Supported Azure DevOps, YAML pipelines, Bicep, Azure infrastructure, monitoring, logs, environment validation, and release workflows.
- Worked with Docker/Kubernetes support scenarios including logs, services, practical debugging, and deployment-support tasks.
- Improved reproducibility of environment, release, and support checks through automation and documentation.
- Shared knowledge, helped with onboarding, and supported teams in understanding technical workflows and troubleshooting paths.

EPAM SYSTEMS - AUTOMATION QA ENGINEER / TESTER (.NET)

Minsk, Belarus

09/2017 - 11/2018

- Worked with Java, C#, Selenium WebDriver, NUnit, and Jenkins in enterprise automation contexts.
- Maintained UI regression automation and analyzed failures in CI-driven regression runs.
- Built foundations in maintainable automated test scripts, reusable helpers, and structured defect reporting.

EDUCATION

Belarusian State University of Informatics and Radioelectronics (BSUIR)

Bachelor of Science in Digital Economy, 2013 - 2017
