## PROFESSIONAL SUMMARY

QA Automation Engineer / SDET with 7+ years of experience in UI/API automation, CI/CD quality gates, and end-to-end release confidence. Strong match for Saily's stack and scope: Playwright + TypeScript, API testing, regression strategy, exploratory testing, and practical quality ownership across product workflows.

Experienced in improving test frameworks, stabilizing automation signal quality, and reducing feedback cycles. Comfortable in AI-assisted engineering environments and proactive in adopting tooling that speeds up test creation, triage, and coverage.
