

Yauheni Sheima

Automation Tester | Java + Selenium | REST API | CI/CD

Krakow / Warsaw, Poland • +48 572 230 851 • yauhenisheima@gmail.com • LinkedIn • GitHub • Portfolio •
EU Blue Card valid until 12/2027

PROFESSIONAL SUMMARY

QA Automation Engineer / SDET with 7+ years of experience across UI automation, API testing, CI/CD-integrated quality, and environment automation. Strong foundation in **Java + Selenium WebDriver** from enterprise regression automation work, supported by broader hands-on experience with Playwright, Postman/Newman, C#, TypeScript/JavaScript, PowerShell, and Python scripting.

Experienced in building and improving reliable test automation around UI flows, REST APIs, regression suites, and pipeline-driven quality gates. Strong practical background in troubleshooting test environments, improving feedback quality, reducing automation noise, and supporting repeatable validation across Windows/Linux and VM-based setups.

CORE STRENGTHS

TECHNICAL SKILLS

Automation & Testing: Selenium WebDriver, Playwright, FlaUI, Power Automate, REST API testing, Postman, Newman, TestRail, regression/workflow/system-level testing, basic BDD/Gherkin/Cucumber

Languages: Java, C#, PowerShell, TypeScript/JavaScript, Python

CI/CD & Delivery: Jenkins, TeamCity, Azure DevOps, YAML pipelines, release automation, environment parameterization

Infrastructure & Debugging: Windows, Linux, VMs, Azure, Bicep, Docker/Kubernetes practical support, Grafana, Prometheus/Loki, Azure monitoring, Browser DevTools, Wireshark, Fiddler

PROFESSIONAL EXPERIENCE

Definely - QA Automation Engineer

06/2025 - 03/2026

Krakow, Poland

- Improved and extended an existing **API automation framework** for broader team use.
- Increased automated coverage from **117 to 199 tests** without increasing total runtime.
- Reduced log output from around **1.5 GB to 11 MB** per run by removing unnecessary debug logging.
- Combined API-driven setup with UI automation to reduce scenario runtime and improve stability.
- Supported transition toward **Playwright + TypeScript** as a more maintainable UI automation direction.
- Worked with hybrid automation approaches where no-code orchestration was supported by PowerShell and Python where needed.

Leapwork - Tester / DevOps Engineer

11/2018 - 03/2025

Krakow, Poland / Minsk, Belarus

- Built and maintained **PowerShell scripts**, JavaScript/Tampermonkey automations, helper tools, VM utilities, installation automation, and workflow improvements.
- Automated repetitive manual processes and reduced operational friction across internal workflows.
- Supported automation and release workflows in **Azure DevOps**, YAML pipelines, and environment validation processes.

- Worked with Azure, Bicep, VMs, monitoring, logs, Key Vault, Application Gateway, WAF, and firewall-related configuration.
- Supported practical **Docker / Kubernetes** scenarios, including logs, services, debugging, and deployment-support tasks.
- Built silent installation flows, remote installation tooling, and browser-side helpers for repetitive work.

EPAM Systems - Automation QA Engineer / Tester (.NET)

09/2017 - 11/2018

Minsk, Belarus

- Worked with **Java**, **C#**, **Selenium WebDriver**, and **NUnit** in enterprise automation contexts.
- Maintained and extended UI regression automation for enterprise web applications.
- Implemented and stabilized automated test cases for core business flows.
- Executed and monitored automated test runs in **Jenkins** and analyzed regression failures.
- Contributed to automation framework and documentation practices for maintainability.

ADDITIONAL RELEVANT EXPERIENCE

Desktop application automation exposure in Windows-based environments using **FlaUI**, **C#/.NET**, PowerShell, and VM-based test setups. Practical performance-awareness through log reduction, pipeline feedback optimization, monitoring, and failure triage.

EDUCATION

Belarusian State University of Informatics and Radioelectronics (BSUIR)

Bachelor of Science in Digital Economy, Minsk, Belarus (2013 - 2017)
