

Yauheni Sheima

Quality Assurance Automation Engineer

Kraków / Warsaw, Poland • +48 572 230 851 • yauhenisheima@gmail.com • LinkedIn • GitHub • Portfolio •
EU Blue Card valid until 12/2027

PROFESSIONAL SUMMARY

QA Automation Engineer / SDET with 7+ years of experience building end-to-end quality systems across API, UI, CI/CD, and environment automation. Strong background in infrastructure-aware testing, workflow validation, and improving delivery confidence through automation, observability, and fast feedback loops.

Experienced in modern automation across Playwright, Selenium, Postman/Newman, C#, TypeScript/JavaScript, and PowerShell, with practical exposure to Python and AI-assisted engineering workflows.

CORE STRENGTHS

TECHNICAL SKILLS

Automation & Testing: Playwright, Selenium, FlaUI, Power Automate, Postman, Newman, REST API validation, TestRail, regression/workflow/system-level testing, basic BDD/Gherkin/Cucumber

Languages: PowerShell, C#, TypeScript/JavaScript, Java, Python

CI/CD & Delivery: Azure DevOps, TeamCity, Jenkins, YAML pipelines, release automation

Infrastructure: Azure, Bicep, VMs, Key Vault, Application Gateway, WAF/firewall, Windows/Linux, Bash, Docker/Kubernetes

Observability: Grafana, Prometheus/Loki, Azure monitoring, Browser DevTools, Wireshark, Fiddler

Modern Tooling: ChatGPT, Copilot, Cloud Code / agent-based workflow experimentation

PROFESSIONAL EXPERIENCE

Definely — QA Automation Engineer

06/2025 – 03/2026

Kraków, Poland

- Improved and extended an existing API automation framework for broader team use.
- Increased automated coverage from **117 to 199 tests** without runtime increase.
- Reduced log output from **~1.5 GB to 11 MB** per run by removing non-essential debug logs.
- Improved signal quality and triage speed through cleaner automation output.
- Supported transition toward Playwright + TypeScript for maintainability and scale.
- Applied modern AI-assisted tooling in practical QA/engineering workflows.

Leapwork — Tester / DevOps Engineer

11/2018 – 03/2025

Kraków, Poland / Minsk, Belarus

- Built and maintained automation scripts/tools across PowerShell and JavaScript.
- Automated repetitive operational workflows and reduced manual overhead.
- Worked with Azure, Bicep, YAML pipelines, Azure DevOps, VMs, monitoring and security-facing components.

- Supported release automation, installation tooling, and environment reliability improvements.
- Contributed to practical Docker/Kubernetes support scenarios.
- Supported onboarding and cross-team troubleshooting as a systems-aware contributor.

EPAM Systems — Automation QA Engineer / Tester (.NET)

09/2017 – 11/2018

Minsk, Belarus

- Worked with Java, C#, Selenium WebDriver, and NUnit in enterprise automation contexts.
- Contributed to regression automation and maintainable test suites.
- Built foundational coding-based QA engineering experience.

EDUCATION

Belarusian State University of Informatics and Radioelectronics (BSUIR)

Bachelor of Science in Digital Economy, Minsk, Belarus (2013 – 2017)
